## GLOBAL HEALTH WATCH 3: AN ALTERNATIVE WORLD HEALTH REPORT

Zed Books, 2011. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "Global Health Watch 3, like the previous editions of the Watch, provides us with compelling evidence about all that is wrong with the governance of health care systems across the world. At the same time it also provides us with hope, in the many stories about what can be done and what is being done. The challenge before us is to act decisively on the evidence provided." - Dr.Hafden Mahler former Director General of World Health Organization""Global Health Watch 3" provides the thorough and provoking overview of Global Health issues that we have come to expect from the series. The case studies of change in action provide powerful evidence that poverty and inequity are neither inevitable nor insurmountable, and my students are going to relish debating the feasibility of redesigning health and healthcare using the alternative blue-print suggested in the latter half of the book." - Dr Jolene Skordis-Worrall, Lecturer in Health Economics, UCL Institute for Global Health"Since 2005, when the first edition of Global Health Watch was launched in Cuenca, Ecuador, each new edition has provided an entirely new and stirring account of creativity and courage from peoples and communities in all corners of the world, as they relentlessly struggle against the wide-ranging, criminal path of capitalism, rapaciously determined to cause ever more suffering and death. GHW-3, surpassing its forerunners, masterfully addresses the relationship among health, health inequalities and their social determinants with exceptional scientific rigor, providing us with an indispensable reference for academics, activists, policy-makers, leaders, government officials, and students. Each section in the book objectively describes and supports the facts, while also unmasking the underlying processes, laying out new paths, and evaluating proposals. Reading the GHW-3 is a necessary step...
