Bobbi Fisher has long inspired early childhood professionals with her approach to student-centered, natural learning. Now, in a concise and highly focused volume, she zeroes in on the exciting area of shared reading. This time, we benefit not just from Bobbi's experience as a twenty-five year teaching veteran, but also from that of her daughter Emily, a first-year teacher whose perspective will resonate with anyone teaching today. Here in one practical resource, busy teachers will find an array of useful strategies for implementing shared reading techniques in pre-K through Grade 2 classrooms. Starting with an overview of shared reading theory, the authors draw largely from the models of Don Holdaway and illustrate the correlation between classroom reading and the bedtime story. While traditional aspects of shared reading are discussed- from big books to chanting to contextualized word study- the book goes beyond those parameters to explore shared reading applications in other areas of literacy instruction. Topics discussed include organizing for shared reading, developing teaching skills with varied texts, applying techniques in group and individual practice, and inspiring student and parent participation.
