Language: English Brand New Book ***** Print on Demand *****.Excerpt from Elementary Psychology: Or First Principles of Mental and Moral Science Know thyself is a very ancient maxim. The affirmation that, The proper study of mankind is man, is leas ancient, more poetic, and equally worthy of acceptance. To know one s self is to know man; to know man is to know mind, since mind alone constitutes the real man. It is coming to be felt by students and teachers that the science of mind has claims upon their attention equal, at least, to those of the physical sciences, of history, or of language and literature. In this feeling the writer shares very fully. One serious obstacle to the study of psychology in secondary schools has been the lack of text-books adapted to the degree of development and attainments of the pupils, to modem methods of investigation and instruction, and to the attainment of results which should be secured by such study. This book owes its existence and its form to the long experience of the author as a teacher of the elements of mental and moral science in schools of different grades, but especially to an experience of many years in such teaching in the Michigan State Normal School. It contains the substance of the instruction which has been found most profitable in such an institution. An attempt has been made to treat of the powers and activities of the mind in a manner easy and familiar, and adapted particularly to students of Normal Schools, High Schools, and other institutions of similar rank and character. No claim to originality of thought is put forth. Materials have been gathered from all accessible sources. These sources are...
